Increase Profitability with

## Certified-Clean DRAFT LINE MAINTENANCE

You know IL law requires bi-weekly cleaning, but did you know **circulation cleaning is 80x more effective** than static methods?

For your business, cleaner draft lines mean:

**Reduced Loss & Waste** | Some customers see an increased output of 8-10 pints per keg. That's straight profit back in your pocket.

\*based on self-reported client statement; results may vary

**Higher Quality Product** | Pour the beer your brewers intended by removing contaminants and off flavors. Better beer means happier customers, and that's what we all want.

At Leaders, we're passionate about what we do and we partner with our clients to improve their business.

*We're more than beer line cleaners -  
we're draft system managers.*

## About Capital Plus™ Services

**Why Consider the Secondary Market?**

Accessing the secondary market helps return value to your bottom line three ways:

**RECOVER  
SAVE**

Trade Validations  
Resell Retiring Equipment  
Sourcing Refurbished Equipment

**Trade Validations** | OEM trade-in offers don't always provide the best returns—compare these offers with BidMed's database of secondary market values.

**Reselling Equipment** | When resale is the best choice for your retiring equipment, BidMed's network of buyers ensures the highest values returned to your budget.

**Buying Refurbished** | Buying refurbished medical equipment can be difficult if you don't know who to trust. BidMed's quality vendors are all personally vetted.

**How Capital Plus™ Works**

**Request Reports**

**New vs Refurbished Purchases** — submit details on equipment required and receive:

- recommended prices based on your region
- comparable refurbished units from trusted sources

**Make Informed Decisions**

Armed with the top market intelligence available, you can make decisions that will result in the best returns:

- purchase new
- purchase refurbished
- accept trade-in offer
- sell on secondary market

If your best value lies on the secondary market, BidMed will work directly with you to make your purchase or sale.

**\$300,000**  
returned to your bottom line  
by accessing the secondary market

\*for a typical 100-bed facility spending \$10M on capital assets

BidMed helps return capital value to your bottom line  
three ways with our Proactive Planning services:

**RECOVER  
SAVE**

**Trade Validations**  
Know whether trade-in offers are a good deal or if you could recover more on the secondary market with BidMed's **GreenBook Reports**.

**Re-Sell Retiring Equipment**  
Many retiring assets still have significant value. BidMed's **auction and off-invoice** services ensure maximum return.

**Sourcing Refurbished Equipment**  
Capital Wishlist it. BidMed find it. BidMed's network of trusted vendors provide quality refurbished equipment.

**Get  
Capital**
